

Demonstration Teaching: Observation Questions for the Classroom Teacher Mary Hall Surface

Student Learning:

1. What did the students learn during the lesson?
2. What were they confused about?
3. What was the level of students' interest and engagement?

What Did You Notice about the Lesson?

1. Clarity of Directions? When were they given?
2. How did each step of the activity build from the preceding step?
3. How did working in groups of three support the content of the lesson?
4. How did the instructor assess student learning?

Can You Imagine Yourself...

1. Teaching this lesson to your students? Why or why not?
2. What parts seem most do-able? Which parts feel most challenging for you?
